WHO WE ARE

The history of CT Forwarding is traced back to the year 2012. Founded in Dubai, United Arab Emirates, by the two Danelian brothers who decided to merge their strength together. The team quickly grew and became one of the leader in high & heavy projects.

The company became a joint venture with LV Overseas in 2020 to become one large corporation.

Sea Freight

We ensure safe sea transportation and delivery of complex cargos around the world. We work within the 5 continents to meet the needs of our clients both in terms of cost and time-frame requirements, and we have a reliable network of agents on hand.

Roro & Breakbulk

CT Forwarding has over 10 years of experience in the high and heavy cargo industry, making us one of the leader in the region. We manage the challenges of planning and coordinate RORO & Break bulk transport by sea.

Project Cargo

Project cargo can consist of one or multiple shipments, and it can cover a wide range of freight volume. Pre-planning is crucial for our team. As different countries have different regulations when it comes to large-scale transportation, the operation must be detail-oriented from the offset

Air Freight

CT Forwarding has agreements with all major air carriers worldwide. We can offer our customers door to door delivery for any shipment, any weight, and any size.

Land Freight

We are a major player in the land freight industry as we own a wide range of trucks and trailers in the GCC. Our land freight services allow our customers more flexibility in terms of cost and method of transportation.

Customs Clearance

CT Forwarding is amongst few a certified as a member of the UAE authorized economic operator programme which allows for smooth and efficient process when it comes to customs documentation.

ct ***Airfreight Charter***

In the world of airfreight excellence, our seasoned expertise extends to chartering flights for airplane engines, where journey is guided by precision, experience, and the commitment to elevate your cargo to new heights of reliability and safety

ct *Planning / Dismantling / Loading / Shipping*

With strategic planning at the forefront, we meticulously orchestrate the precision of dismantling machinery, followed by the careful loading and lashing, and seamless shipping of each component, ensuring a journey of reliability, excellence and cost-effectiveness for our valued customers.

ct *Planning / Dismantling / Loading / Shipping*

ct *Cars Loading - Lashing - Shipping*

More than 20 cars are shipped on a weekly basis from Jebel Ali port to Europe and Africa sectors. We ship vehicles overseas by airfreight, sea containers and by Roro car transport ships. Depending on the type of vehicle, our specialized team is expert in loading and lashing of the units inside the containers, to give you the most effective and economical solution.

ct Flat Rack

Our expertise lies in the art of flat rack shipping, where precision meets specialization, ensuring your cargo embarks on a journey that transcends the ordinary, securely cradled on the wings of our proficiency.

ct Flat Rack & Lashing

In the realm of shipping, our mastery unfolds with grace in the specialized art of breakbulk shipping, where every parcel becomes unique, and our expertise becomes the guardian of your cargo's seamless and secure passage

ct *Mega* Reactors

CT Forwarding made history in the UAE: Breakbulk shipment directly hauled by a floating crane carrying 4 mega reactors, weighting 829 TONS TOTAL, each sizing 35m long. Jebel Ali port had to close the port to ensure the safety of this operation. The units were delivered door to door to Europe.
